

Product Data Sheet

Product Name: FS S-6A

Chemical Name:

3,3,4,4,5,5,6,6,7,7,8,8-Tridecafluoro-1-octanesulfonic acid potassium salt

Molecular Structure:

CAS No.: 59587-38-1

EINECS: 261-818-3

Physical Properties

Form: White or pale yellow solid

Molecular weight: 466

Boiling Point: No data

Melting Point: 292C

Density(g/ml): No data

Ref. Index: No data

Flash Point: No data

PH: No data

Specification

Purity: No data

Application:

As an agent for wetting, spreading, foaming, antisticking and antifouling.

Packing:

1L HDPE bottle

5L HDPE bottle

10L HDPE bottle
